Dear Ivan

**NSW Bureau of Crime Statistics and Research Anniversary Symposium**

May I express my sincere gratitude to you and your team for your assistance in conducting our anniversary symposium.

The slide production, AV and stage set up was absolutely first rate. I didn't see a single glitch in the slide presentations of any of the very many speakers we had. Everything was done with a minimum of fuss and stress. The diverse presentations were packaged in a way that really added to the professional appearance of the symposium. Yours is without doubt the best AV service I've ever encountered in 25 years of going to research conferences.

Congratulations Ivan and thanks again

regards, Don
