Dear Ivan

**Re: Medical Technology and Innovation 2008, Star City, Sept 24, 25 2008**

Our sincere thanks to you and your team for again producing and staging a seamless conference program for the MTAA at Medical Technology and Innovation 2008.

The preconference planning, slide production, AV and stage set up, speaker and speaker materials management, with delivery through to the lecterns, went without a hitch.

All this is of course ably assisted by your clever programming.

Conference Data Services certainly take the pain out of running a conference from the organizer's and the MTAA board's perspective. This in turn, allows us to focus on all the other details that contribute to running a smooth and professional event.

Thank you again. We look forward to working with you on the 2009 event.

Yours Sincerely

Jane Apfel
